What You Can Contact Me About

- Job opportunities and roles in AI engineering or software development
- Freelance or collaboration on AI, web, or mobile projects
- Questions about my projects, such as RAG systems or Flutter apps
- Networking with people in tech and startups

Availability

I'm currently working full-time as an AI Engineer at Business Analytics. I'm [open / not currently open] to new opportunities and collaborations.

Note for the Chatbot

If someone asks for personal details that aren't listed here, such as a phone number or home address, politely say I don't share those publicly and point them to my email or LinkedIn instead.
