Muhammad Faizan

LinkedIn: Muhammad Faizan

PROFESSIONAL SUMMARY

Aspiring Software Developer with hands-on experience in Flutter and a foundational understanding of web development. Eager to expand my expertise into areas such as Artificial Intelligence and full-stack web development. Passionate about learning new technologies and building innovative solutions in a dynamic and growth-oriented environment.

EDUCATION

Bachelor of Science in Computer Science

Iqra University, Islamabad
Sep 2021 – 2025
Cgpa 3.31

Projects

AI-Driven Auction App (Final Year Project)

Designed and developed an AI-powered auction platform featuring dynamic pricing predictions, real-time bid optimization, and AR-based item visualization for an immersive and efficient bidding experience.

Digital Marketing Website (HTML + CSS + JavaScript + GSAP)

Developed a responsive and visually engaging digital marketing website using HTML, CSS, and JavaScript, enhanced with GSAP for smooth animations and interactive user experience. The site includes dynamic sections such as Services, About Us, and Contact, designed for performance, SEO optimization, and cross-device compatibility.

Weather App (Flutter)

Built a weather forecasting app allowing users to fetch real-time weather data based on location input.

Expense Tracker App (Flutter)

Built a user-friendly mobile application using Flutter to help users manage and track their daily expenses. The app features intuitive UI, real-time data updates, and visual representations such as bar and pie charts. Integrated local storage using Hive for offline functionality, and included features like income input, categorized expense entries, and detailed transaction history for efficient personal finance management.

Skills

Programming Languages

- C++
- Java
- Python
- dart

Mobile Development

- Flutter
- Dart
- Android studio

Certification

1. Meta Professional Program in Front-End Web Development
   Meta via Coursera
   Verify Certificate
